Formal methods include: attending conferences, workshops, webinars, seminars, symposiums with a view to enlightening teachers on latest developments in the field of education, which help them update with latest concepts that are required for professional development.

Teachers, in order to let learners learn in the best possible ways, have to adapt to the changes from time to time. Learners live in a different setup as compared to teachers. This gap can be bridged by teachers only when they reach out to the mental level of the learners.
