WEST BENGAL ELEMENTARY TEACHER EDUCATION CURRICULUM, LEADING TO

Two Year Diploma in Elementary Education through Face To Face Mode

FOREWORDS

I am very glad to announce that the West Bengal Board of Primary Education is going to accept the final version of the revised Two Year D El Ed Curriculum for implementing it from July 2014-session.

The Course is meant for the candidates who have passed the H S (+2) or its equivalent examination from a recognised Board/Council with 50% marks in the aggregate (45% for SC, ST, OBC, PH, Ex-Servicemen & Exempted Categories).

With the introduction of the new curriculum, syllabi and approaches to school education in West Bengal from 2013, it became an imperative for the West Bengal Board of Primary Education to review and revise the existing Two Year D El Ed Curriculum in accordance with the directions and guidelines of the NCFTE-2009 to accept the new challenges of school education, enshrined in the elementary school education curriculum in West Bengal updated in tune with the spirit in the NCF-2005.

The present document was first handed over to the WBBPE by the Secretary, Department of School Education for implementing the same with effect from 2014.

The West Bengal Board of Primary Education without accepting the same placed the document before a host of national and state level experts in a workshop, held in Kolkata on the 29th and 30th August, 2013.

The final version is the product of their suggestions and recommendations, received from the experts all over India in 2013 and 2014. It is expected that this revised curriculum will meet the demands of School Education through professional preparation of student-teachers.

It is hoped that student-teachers after going through the curriculum will bring about the desired changes in the class-rooms where "the destiny of India is being shaped", by

- (i) bringing the learners to the fore front of the education-process
- (ii) not treating information-giving as the sole aim of education
- (iii) creating a linkage between schools and community
- (iv) creating students' profile and bringing into account the assessment of every child's performance continuously & comprehensively

Wish the National Council for Teacher Education to look up on this curriculum as equivalent to all such curricula introduced and to be introduced as per their guidelines.

West Bengal Board of Primary Education

ACKNOWLEDGEMENT

No word is apt enough to express our gratitude to the NCTE and Ministry of Human Resource Development who on having the request from the Secretary, Department of School Education, took no time to depute their experts who are stalwarts in the field of elementary Teacher Education.

In the same way, the Principal, Regional College of Education, Bhubaneshwar, deserves our special thanks for having deputed experts who have made their marks in the field of Elementary Teacher Education.

The Secretary, Department of School Education, Government of West Bengal, the commissioner of School Education, WB, the State Project Director, PBSSM, the Joint Secretary (EE), Government of West Bengal, the Chairman, Expert Committee on School Education, the Heads of the Department of Education of different universities deserve our gratitude, because nothing would have come out but for their cooperation and active participation in the process.

I know that the list will go on expanding if I name every contributor. However, I must stop here by mentioning that Dr Alope Bhattacharyya, the Deputy secretary, West Bengal Board of Primary Education in perfect association with Dr Koushik Chatterjee, Dr Piku Choudhury, Dr K K De, Dr A Panja, Dr Suparna Das, Dr Swati Goswami, the Principal of Nadia DIET did the real job of preparation of the document as per the guidelines of the NCFTE-2009 to meet challenges of School Curriculum, enshrined in the NCF-2005, having due consideration for the region-specificity and regional language variance.

At last, I must mention the very active role of different DIETs, PTTIs & B Ed Institutions in West Bengal in the process of the revision of the curriculum.

Now, the sincere and honest efforts of the experts will be prized, if the curriculum is implemented in right spirit all over West Bengal for realisation of its goals.

The West Bengal Board of Primary Education shall remain ever grateful to the experts who have already illuminated their names in the field of elementary teacher education both at the national and state levels.

INTRODUCTION

The National Curriculum Framework-2005 and the Right of the Children to Free and Compulsory Education Act-2009 clearly speak out the expectations of our country from a teacher. These may be summed up in the following few bullets—

- ✓ Care and concern for the children and their all-round development
- ✓ Understanding the socio-cultural diversity, economic disparity, linguistic plurality and secular framework of the nation
- ✓ And, therefore, acceptability of a heterogeneous classroom
- ✓ Knowledge of the needs, the children, the society, the nation & the world

Existing Teacher Education

There are two forms of Teacher Education—Pre service and In-service. The aim of one is to prepare an individual for the profession, while the aim of the other is to update a teacher in accordance with the challenges of education.

The pre-service—Vcurriculum currently focuses on learning about various pedagogic methods and techniques and never allows or puts a teacher educator into any challenging situation to prove the truth of all what he has said.

There is no construction and reconstruction of the learning experiences. Assessment is based purely on the ability of telling and explaining, not on doing things in similar situations or making things environmentally appropriate.

The in-service part of the teacher education is almost a routine work. The teachers, who are called for orientation without any concern over whether they need such trainings at all or not, mostly do not apply or have to apply the concepts in real class-room situations.

Our Forward Look

A New Era of Curriculum development to begin from West Bengal to address the oft-spoken, so far unanswered questions like,

- ✓ Who a quality teacher is
- ✓ What makes an innovative and reflective teacher
- ✓ For whom a teacher works
- ✓ How to give effect to the concept of inclusive Education in the real classroom situations
- ✓ How to address the diverse cultural background and multi lingual set up in classrooms
- ✓ How to accommodate the children with special needs
- ✓ How to address the problem of out of school children
- ✓ How to put the out of school children in to the mainstream of education
- ✓ How to reach the last out of school student and put him/her into the focus

Pedagogy Revision by an Expert Committee

Traditional instructional strategies look up on teaching as an act of informing, telling and narrating which means passivity on the part of the learners. Teachers are also taught to look upon teaching in the like way.

Teacher-educators, accordingly, taught the student-teachers about various strategies without leading them into innovations/improvement upon the existing pedagogic interventions.

The trend has its impact on the school education which is practically dominated by the teachers who have no other activity than informing the learners of certain things.

Pedagogic Revision by an Expert Committee is the Crying Need.

Pedagogic revision implies: Replacement of teacher centrality with learner centrality in the real sense of the term ● Bidding adieu to passive listening to and giving lectures and welcoming activity and project oriented self-learning ● Constructing the learner's own knowledge in place of giving and receiving a bagful of information ● Allowing every learner to share his/her experiences ● Moving to the community for sharing knowledge with wisdom, testing knowledge etc ● Integrating knowledge with experiences

Systemic Reforms: We want to get rid of the ever increasing load of education, but our teachers do not know how to effect it or how to de-load education to let the child grow and mature in consonance with nature, because.

- The concepts arise from books and die down after the programme or the course-endexamination is over.
- Therefore, in West Bengal, we are very much worried about bringing in such pedagogic issues in the right spirit and with the pious intention of involving the teachers very much in the process of working out the devices and trying out the same to find out its efficacies, during the course.
- Our teachers talk about School based Continuous and Comprehensive Evaluation, but cannot practise it to relieve the learners of the examination-phobia. So, there remains an everwidening gap and disparity between what they are taught and what they practise.
- One of the major issues in the revision-of Two Year D El Ed curriculum, is to prepare the student-teachers for all sorts of challenges in the elementary education including school based activities.
- Mobilization of the Teaching Community to be acquainted with the socio-economic and cultural diversities of different states as well as different parts or districts within the state, to adopt the best practices for their classrooms, is one of the few major goals to achieve through Teacher Education.
- This will ensure respect to the national values like acculturation, acceptance, endurance and sharing in the midst of plurality and diversity.

How to Achieve this: Through excursion and field trips within the curriculum/course ● On line sharing of experiences and exchange of views ● Allowing freedom of choice to the teachers in order to contextualize Education ● Inviting others to the arena of West Bengal-specific teacher education under the National Frame Work ● Making education available through everybody's home language in a heterogeneous classroom.

Emphasis on Practicum: There should be a balance between the concepts and practices. A teacher must not ask his/her pupils to do what he/she himself/herself cannot do. Herein lies the truth of linking the classroom to the real world as envisaged in the NCF-2005, and duly endorsed by the NCFTE-2009.

- Therefore, in addition to the practical activities, mentioned above, our curriculum is going to lay due stress on the school-internship programme within

the course, not merely in the conventional form of practice teaching for a certain period of time, but through the adoption of certain schools as the laboratories to test the novel concepts of learner centric, activity based strategies for qualitative improvement of education through the all-round development of the child who is at the centre of all such activities. ● Every such leader school within the vicinity shall be under the leadership of a teacher educator who will act as a link between the student-teachers and the existing teachers of the school for dissemination and exposition of the innovative practices among the in-service teachers. ● Evaluation of such activities would be done continuously and comprehensively in terms of students' response and feedback, in terms of their motivation in the observed & observable, measured and measurable learning situations. ● There would be remedial measures to correct the deficient teachers through live demonstration and active participation of the teacher educator, concerned, within such course. ● However, only on successful completion of the practicum course, student-teachers would be exposed to external evaluation once in every year which is summative in nature.

Education of the teacher-educators is no less important in view of the expectations of teacher education curriculum. Every teacher educator is required to be updated duly in order to cope with the new challenges of education, spelt out in the N C F-2005, endorsed duly in the NCFTE-2009.

Student-teachers are bound to fail in their classrooms, if the teacher-educators cannot rise to the occasion and empower the teachers accordingly along the lines spelt out in the NCFTE-2009.

For appropriate education of the elementary teacher educators for effective transaction of the curriculum, leading to the realization of the curriculum-goals, appropriate steps have been envisaged by the West Bengal Board of Primary Education.

The relevance of educational research, preferably in the form of short-term, classroom-problemspecific Action Research is unquestionable for the development of the learning process to ensure the desired learning outcome-oriented school Education.

Enough space in the Curriculum has been left for the teacher-educators to understand the linkage between the research in teacher education and the guarantee in the promotion of qualitative school education and also to encourage entrepreneurship in research among both the teachers and teachereducators.

Evaluation : Internal & External**50 marks for Internal Evaluation**

Demonstration of 5 lessons on the selected five skills : 5 x 5 marks = 25

Observation and reflection : 5 x 2 marks = 10

Preparation of Lesson Notes : 15 marks

50 marks for external evaluation

5 lesson notes in the note book on five selected skills : 5x4 marks=20

Demonstration on two skills before the external evaluator : 2x15 marks=30

The skills to be demonstrated will be selected by the external evaluator on the spot.

Note :

- I. Pre-Internship-Process Based Skill Enhancement will require the student-teachers to practice the selected teaching skills in small components within the institution under the guidance and counseling of the teacher-educators
- II. The entire lot of such student-teachers will be divided into small groups, consisting of 10 members each
- III. The teacher-educator will first demonstrate a skill and ask the student-teachers to observe, reflect and critically comment on the presentation
- IV. Then, each student will perform on the same skill. While one performs, others will observe, reflect and critically comment on the presentation
- V. The process will be repeated in other four skills also
- VI. During this process-based-skill-enhancement-activities, the student-teachers will be assessed continuously and comprehensively as per the guidelines, given
- VII. **For external evaluation** evaluators will be required to evaluate as per the guidelines given.
- VIII. In all cases and for all practical purposes, **evaluation in both internal and external modes must have consistency in quantification**

- 16 : Activity-16 : Preparation of Extension Activities to correlate textbook-based activities.

Note : The school—based-activities (P-4) for the student—teachers will start in the month of January in the first year of the course and go on till March. During this period the learners will go to the selected and allotted school and interact with the students and management of the schools in terms of the activities, mentioned in our course. The performance of the student-teachers thereon each of the activities will have to be submitted in the second year for internal evaluation only.

Evaluation (Only Internal) :

Out of these only five activities will be taken up for assessment. For assessment the following scheme will be used :

Out of the 16 activities, performed, a student-teacher will report finally 5 activities. The evaluator is to see that all the trainees do not submit the reports of the same 5 activities. In order to avoid this repetition the evaluator may select 5 activities by drawing lots for every trainee. Each activity will be assessed on 20 marks (maximum). ($20 \times 5 = 100$ marks)

Evaluation Schema for School Based Activities

Four Indicators for Assessment of Five School based Activities :

1. Report Book : 05
2. Participation : 05

(Each trainee will have to be certified by the Head of the School to which he/she will be attached, regarding the execution of each Activity)

3. Language used for reporting: 05
4. Over-all impression of the evaluator: 05

Evaluation : Scheme & Guideline (General)

The evaluation scheme consists of continuous evaluation and course end written test. The marksdivision for theoretical courses will be 30% for internal and 70% for external evaluation. For a course of 100 marks the marks distribution will be 30: 70as well.

However, evaluation-procedure given at the end of each course will be followed, keeping in mind the uniformity in the question-pattern and marking system.

Continuous Evaluation (Internal)

- Course based term-paper.
- Development of learner portfolio.
- Project work-group and individual.
- Preparation of content enrichment material.
- School-based practical activities.
- Teaching Practice for each school subjects.
- Number of classes as per NCTE norms
- Lesson plan,
- Observation of Lessons of learners during lesson,
- Peer observations (irrespective of subjects)
